

Seminar: Making Science Matter: Lessons Learned on the Road to Solutions

Presenter:

David Hart, Director, Senator George J. Mitchell Center for Sustainability Solutions and Professor, School of Biology and Ecology, University of Maine

Time of Event:

Tuesday, October 6, 2015 - 11:00

Location:

National Socio-Environmental Synthesis Center (SESYNC)
1 Park Place, Suite 300
Annapolis, MD 21401

Ever since he became embroiled at the age of 17 in a controversial proposal regarding the environmental and economic future of a coastal California watershed, [David Hart](#) [1] has been searching for ways to increase the value of science in societal decision making. Along the way, he has conducted ecological research on a wide range of problems; served as a science advisor to government, the private sector, and NGOs; and co-created a new kind of institution—the Mitchell Center for Sustainability Solutions—designed to help accelerate the transition to sustainability. One version of that “creation story” [can be found here](#). [2]

Event type:

Seminar

Event Attendance:

Open to the Public
