Team Meeting: Resilience to Water Hazards

Time of Event:
Tuesday, April 14, 2015 - 09:00 to Thursday, April 16, 2015 - 17:00

"Resilience to Water Hazards" Pursuit meeting

This is a closed meeting for a funded synthesis group of visiting scholars.

In order to improve governance of surprises, this project looks at the interaction between governance and biophysical systems. In a first step, both systems are described separately in order to ascertain how surprise events impact upon them individually. In a second step, the governance and biophysical systems are evaluated in order to understand the impacts of adaptation measures on socio-environmental resilience.
