

Team Meeting: Fire on the Fringe

Time of Event:

Monday, July 27, 2015 - 09:00 to Thursday, July 30, 2015 - 17:00

"Understanding Shifting Human-Fire Dynamics in the San Diego-Cleveland National Forest Wildland-Urban Interface" Pursuit meeting

This is a closed meeting for a funded synthesis group of visiting scholars.

This project will utilize stochastic cellular automata to model urbanization, environmental change, and sociological behavior to gain better understanding of how actual and perceived fire risk, spatial urbanization patterns, and human-induced replacement of native chaparral with fire-prone exotic grasses interact and feed back into the socioecological dynamics of the SDCNF WUI.
