Summer Institute 2015

Time of Event:
Monday, July 20, 2015 - 09:00 to Wednesday, July 22, 2015 - 17:00

This is a closed short course/hackathon.

The Computational Summer Institute offers participants, which include SESYNC Postdoctoral Fellows and Principal Investigators and participants of SESYNC Graduate Pursuits, hands-on training in managing the lifecycle of their data and code with a focus on using open source tools, including R.
