Team Meeting: Socioecology of Acacia

Time of Event:
Monday, August 17, 2015 - 09:00 to Thursday, August 20, 2015 - 17:00

"Socioecology of Acacia" Pursuit meeting

This is a closed meeting for a funded synthesis group of visiting scholars.

This project uses “acacia invasions”—i.e., situations where trees of the genus Acacia (Fabaceae) have spread significantly in landscapes—in Europe, South Africa, Madagascar, and Australia (native range) as a model system to develop tools that facilitate cross-site learning.
