Team Meeting: Decision-Support Tools for Pest Control

Time of Event:
Tuesday, December 1, 2015 - 09:00 to Thursday, December 3, 2015 - 17:00

"Evidence and Decision-Support Tools for Controlling Agricultural Pests with Conservation Interventions" Venture meeting

This is a closed meeting for a funded synthesis group of visiting scholars.

This project seeks to develop the scientific foundation for incorporating pest control into resource decisions through building a compelling evidence base, packaging science into practical tools for decision-makers, and demonstrating their efficacy using field data.
