

Workshop: Big Interdisciplinarity

Time of Event:

Tuesday, June 14, 2016 - 09:00 to Friday, June 17, 2016 - 17:00

"Big Interdisciplinarity: Directing very large social and ecological system projects: Insights from experience" workshop

This is a closed meeting for a funded synthesis group of visiting scholars.

The project will develop a workshop with assembled leaders of large, interdisciplinary projects involving natural and social scientists to address complex and dynamic human-natural systems associated with agriculture, forestry, and other managed natural resources. The workshop activities will draw on experiences, lessons learned, and emerging visions for best practices for execution of these practices to meet policy imperatives and the needs of stakeholders, and to impart concepts and skills to scientists and practitioners required for ongoing success in addressing these critical of issues.
