Pursuit: The Socio-Environmental Data Explorer

Time of Event:

Wednesday, August 10, 2016 - 09:00 to Thursday, August 11, 2016 - 17:00

"The Socio-Environmental Data Explorer" pursuit

This is a closed meeting for a funded synthesis group of visiting scholars.

The aim of this pursuit is to develop the Socio-Environmental Data Explorer (SEDE), a web-based textual and visual analytic system that will collect social media and environmental data in near real-time and enable scientists, decision makers, and stakeholders to rapidly assess environmental impact and perceptions of risks of hazards through space and time.
