[SESYNC Seminar] A Tale of Two Networks: Women, Social Media, & Sustainability

Presenter:
Dr. Gillian Bowser, Research Scientist, Colorado State University

Time of Event:
Tuesday, February 12, 2013 - 12:30

SESYNC - 1 Park Place, Suite 300, Annapolis, MD

Sustainability, social media, and women are a unique combination. How do people network around concepts of sustainability, and what is the role of social media and social networks in particular? The Global Women Scholars Research Network uses the platform of the Commission for Sustainable Development, Rio+20 to look at how women network around a science issue, particularly sustainability and climate change. Our goal is to look at new ways for engaging women and minorities in science and more importantly for engaging new audiences in science and conservation of the environment and climate change.
