Pursuit: A Socio-Ecological Framework for Assessing Stormwater Infrastructure Equity: A Case Study of New York City

Time of Event:
Monday, April 10, 2017 - 09:00 to Thursday, April 13, 2017 - 17:00

"A Socio-Ecological Framework for Assessing Stormwater Infrastructure Equity: A Case Study of New York City"

This is a closed meeting for a funded group of visiting scholars.

This project uses New York City as a case study to examine cumulative socio-ecological impacts of SGI - an urban area experiencing the multiple pressures of rapid growth, climate change, and aging stormwater infrastructure.
