(Postponed) Pursuit: Planning for Sustainable Water Futures in Sub-Saharan Africa in the Context of the SDGs

Time of Event:
Monday, April 6, 2020 - 09:00 to Thursday, April 9, 2020 - 17:00

*Postponed

"Planning for Sustainable Water Futures in Sub-Saharan Africa in the Context of the SDGs"

The goal of this proposed Pursuit is to aid planning for sustainable water futures in sub-Saharan Africa built around provision of FWES from healthy freshwater ecosystems, in support of achieving the SDGs. The team will synthesize existing knowledge and data across sub-Saharan Africa on FWES and the distribution and role of grey infrastructure. They will then explore decision criteria for defining optimal mixes of green, grey and blended solutions in support of sustainable water futures. Crucially, the team will explore practical application through case-studies in two African countries, providing an immediate opportunity to influence on-the-ground policy and decision making.
