

## **Rural Forest Communities at a Tipping Point? Trends & Actionable Research Opportunities**

### **Time of Event:**

Monday, September 9, 2013 - 09:00 to Friday, September 13, 2013 - 17:00

The National Socio-Environmental Synthesis Center (SESYNC)

1 Park Place, Suite 300

Annapolis, MD 21401

### **"Rural Forest Communities at a Tipping Point? Trends & Actionable Research Opportunities" Pursuit team meeting**

This Pursuit project focuses on ecological wealth and changing human populations in rural forest communities in developed countries. The project assembles a diverse group of researchers with forest-change expertise to perform quantitative, data-driven comparative and case-based studies of land-use/land-cover and demographic change, explore the implications for ecological wealth, and build scenario-based predictions for assessing the implications of various forms of change on ecosystem services and access to these services.
