

Macroevolution of Ecosystem Services from Trees

Time of Event:

Monday, September 23, 2013 - 09:00 to Wednesday, September 25, 2013 - 17:00

The National Socio-Environmental Synthesis Center (SESYNC)
1 Park Place, Suite 300
Annapolis, MD 21401

"Macroevolution of Ecosystem Services from Trees" Venture team meeting

This Venture examines the macroevolution of ecosystem services that the Earth's trees provide. The more ecosystem and environmental services we consider, the more species and evolutionary lineages will be found critical to human well-being. Using a range of computational approaches and bridging the fields of economics, ecology, evolution, and ethnobotany, Venture participants will synthesize data to economic valuation of the ecosystem services of trees in North American and globally.
