Team Meeting: The Contribution of Psychology to Environmental Sustainability

Time of Event:
Wednesday, October 16, 2013 - 09:00 to Friday, October 18, 2013 - 17:00

The National Socio-Environmental Synthesis Center (SESYNC)
1 Park Place, Suite 300
Annapolis, MD 21401

"Beyond Traditional Roles: The Contribution of Psychology to Environmental Sustainability" synthesis team meeting

This is a closed meeting for a funded synthesis group of visiting scholars.

The problems of environmental protection are wicked problems, without clear solutions and with complex interdependencies between human and nonhuman species and the physical/material environment. There is increasing need, as well as increasing interest, in joining the knowledge and methods of psychologists to more traditional approaches by ecologists, conservation biologists, and environmental policymakers.
