The National Socio-Environmental Synthesis Center (SESYNC)
1 Park Place, Suite 300
Annapolis, MD 21401

"Synthesis to Link Understanding, Planning, & Management of Urban Ecosystems in China" Pursuit meeting

This is a closed meeting for a funded synthesis group of visiting scholars.

The goals of this Pursuit are to establish a knowledge base and related investigator network for co-development of research questions and applications of urban ecology to metropolitan design and planning in China. This Pursuit will synthesize current knowledge in urban ecology related to the sustainability of cities with knowledge of ecological functions and patterns, and human population distributions and trends in China.
