

Team Meeting: Models for Citizen Science Insect Data

Time of Event:

Monday, December 1, 2014 - 09:00 to Friday, December 5, 2014 - 17:00

"Models for Citizen Science Insect Data" Venture meeting

This is a closed meeting for a funded synthesis group of visiting scholars.

The three main goals of this Venture are to:

- develop general analytical models to extract the most robust population indices from citizen science insect monitoring data;
- integrate daily growing degree day models to improve model parameterization and account for changing climates; and
- perform cross-validation analyses for programs with different protocols.
