

Pictora Sequence for fire history lesson

- 1) Draw a cross section of a 10-year-old tree stump.

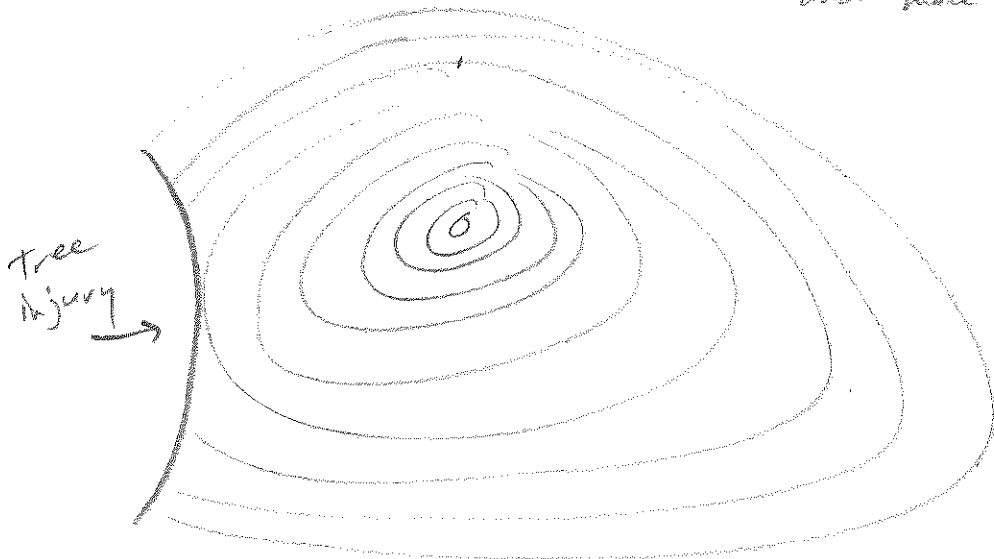

10 rings: discuss why rings are formed + if they always form in trees

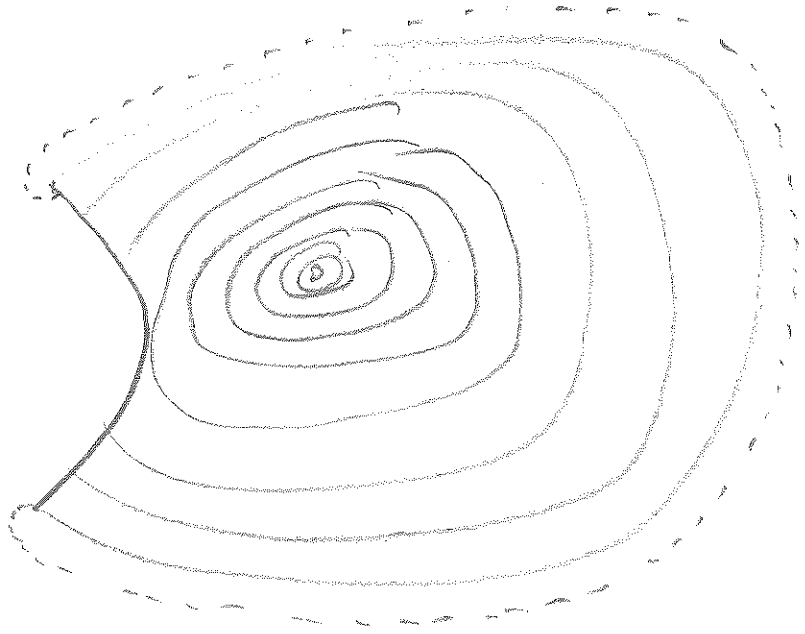

↳ Dormancy causes annual rings (winter in greater latitudes)

↳ some trees in tropics do not form annual rings

- 2) Fire injured, but did not kill tree. (erose a few rings and make injury)

3) Draw the next annual ring (students may need help)

↳ new annual ring drawn with dotted line

↳ discontinue fire scar formation when tree injured but not killed by fire.

4) Draw next 4 rings
